Image: miniTool Partition Wizard Pro - Free version of partition and. Disk Management and partition resizing tool. I need "Simple, Dynamic and Easy to Use". Where can I find it? ;]. I need "Simple, Dynamic and Easy to Use". Where can I find it? ;]. Please see the following picture: And this is my question: How to do this and in what directory I should put it? A: Use the following command to install it: sudo apt-get install minitoolpartitionwizard The files are installed in the PATH system variable. The program will be in the bin directory (/usr/bin) of the unzipped install file. For more details refer to the README file in the install file. Q: trying to understand why I get an error using char pointer I have been asked to write a function that returns the number of times a given string occurs in a file, I have been given the template int count(char *filename, char* token){ char *tokenArray[25]; int counter = 0; while (find(filename, ".", 0)!= NULL){ tokenArray[counter++] = filename; filename = strtok(NULL, "."); } printf("%s ", tokenArray[counter]); return 0; } i have been instructed to use strtok, I have no clue how to fix this I get an error from strtok saying that it cannot convert a char pointer to a string. but the file I have been
